- 1. Malcolm Sawyer: "The causes of the eurozone crisis and policy remedies"
- 2. Marcello Signorelli: "Crisis and Labour Market: Beyond the Okun Law"
- 3. Sebastiano Fadda: "Labour market institutions and the crisis. Where we come from and where we are going"
- 4. Engelbert Stockhammer: Labour market rigidities or effective demand? The macroeconomics of unemployment. Or: The finance-dominated accumulation regime, polarisation of income distribution and the crisis
- 5. Richard Wolff: "Economic Decline to Social Crisis: USA, 2011"
- 6. Alfred Kleinknecht: "Does Europe need more flexible labor markets?"
- 7. **Bob Jessop:** "The Global Financial Crisis and Varieties of Capitalism: a Minsky Moment and/or a Marx Moment?"
- 8. **Pasquale Tridico:** "Financial crisis, labour markets and varieties of capitalism: a comparison between the European Social model versus the US model"
- 9. Joanna Tyrowicz: "Crises and misery can general equilibrium economics and the distributional effects analyses be combined?"
- 10. Anastasia Nesvetailova: "Beyond the political economy of Hyman Minsky: what financial innovation means today".
